Did you sleep at all? Anything you need from us this morning?

Part of the local official meeting will include photos of what they're seeing. Since the river may have significantly changed since yesterday thought it would be good to see what it's looked like then follow up with what it looks like this afternoon before the press meeting. Also, the local officials may want to attend the Treatment Plan tour. Have a feeling some of the Congressional staff will. Also want to give him as much time to prepare before the media event and the sooner he hears from the local officials the better. Those were my thoughts. Let me know. I need to coordinate this agenda with others ASAP. Libby

Libby- looks good. However I believe Shaun wanted to see the river and possibly the water treatment facility first. But let's check in with Joan as discussed. Paula

Hi Shaun and David,

Number of logistics to still work out but here's the plan forward. We hope to be able to announce that we will hold a public meeting but don't have a date/time and need to make sure we could have the right people present.
